

Nourish yourself in a bath designed with your comfort in mind thanks to BelBagno. These freestanding and back-to-wall tubs are all about prioritising your bathing experience to make sure it's as relaxing and indulgent as possible.

BelBagno baths are made from the highest-quality acrylic and resin stone to facilitate a bathing experience that's truly therapeutic. Premium sanitary-grade acrylic is reinforced with fibreglass, resulting in a scratch-resistant surface that's strong and will retain its sparkling white shade for life.

As you soak the troubles of the day away, you can feel confident in the tub's exceptional thermal properties and back support. And since relaxation is only better when shared, BelBagno's double-ended bath is the perfect option for those who'd like to enjoy a bath with a loved one.

Of course, if you've blown your renovation budget on a bath, it won't bring you the relaxation you require. Thankfully, BelBagno products are well priced and come with external drains and overflows included in the purchase, ensuring no hidden expenses. They're also made to the highest Australian Standards and come with long-term warranties for further peace of mind.

COMFORT IN MIND
