

BATHING BEAUTY

What better way to ramp up style points in the bathroom than to bring in a touch of Italian style. BelBagno designs are outside the box. The company's products inspire emotions, with stylish lines that complement a variety of home themes.

Today, when everyone is tired of poly white and inferior freestanding vanities, there's a simple way to make bathrooms look fresh and clean. Update walls with neutral tiles and a fresh coat of paint. Replace taps and showerheads and, last but not least, add wow factor with something like the BelBagno Alto bath. Using just a few branded items, like the BelBagno wall-faced toilet or concrete-finish Prado vanity, you can make a whole bathroom feel more luxurious.

Many people don't realise how much time they spend in the bathroom every day and how this affects them. Your bathroom is your sanctuary. A well-chosen bath can inspire you in the morning, or keep you going all day until it's time to enjoy some bubbles in the tub in the evening. Ensure your selected bath is something you genuinely adore.

Build your ideal bathroom haven with a selection of exciting options such as the timber-look Ancona wall-hung vanity, combined with the award-winning Bucciano freestanding bath in a matt grey finish. Complete the look with attractive metallic fixtures and fittings to achieve the ultimate on-trend design.

Call BelBagno Australia to book an appointment and discuss the right option for your bathroom design.
